

Odeniran Sulaimon

Design Engineer

I'm a Design Engineer with years of experience transforming ideas into functional, user-centered digital products and websites. I specialize in creating seamless experiences that balance aesthetics, usability, and performance. With a strong attention to detail and a problem-solving mindset, I combine design, strategy, and technical expertise to build digital solutions that not only look great but deliver real value and meaningful user experiences.

Experience

Designer & No-Code Web Developer

Hypergrowth

2024-08 - 2026-07

- Designed and developed responsive websites and digital products using Webflow and Framer.
- Took complete ownership of the UI/UX process from ideation and wireframing to implementation.
- Collaborated with cross-functional teams to translate business goals and user needs into intuitive digital experiences.
- Blended design expertise with no-code/low-code development to accelerate product delivery without compromising quality.
- Ensured pixel-perfect execution and user-first design across all projects.

UI/UX Designer

Cimpla

2023-12 - 2024-07

- As the sole UI/UX Designer at Cimpla, a dynamic startup poised for launch, I played a pivotal role in shaping the digital presence and user experience for our innovative products. Being the sole designer provided me with a unique opportunity to be hands-on in every aspect of the design process, from ideation to implementation.
- Took complete ownership of the UI/UX design process, from initial concept to final implementation. This involved collaborating closely with cross-functional teams to understand business goals and user requirements.

Junior UI/UX Designer

EtherealDesign Studio

2023-05 - 2023-12

- As a Junior UI/UX Designer at EtherealDesign Studio, I played a vital role in contributing to the creation of visually stunning and user-centric digital experiences. Working within a collaborative and innovative environment, I honed my design skills and gained valuable hands-on experience in various aspects of the UI/UX design process.
- Utilized tools such as Figma and Sketch to create wireframes and interactive prototypes. Actively participated in design iteration cycles, incorporating feedback to enhance user flows and interactions.

UI/UX Design Intern

GoPay

2022-11 - 2023-04

- As a UI/UX Design Intern at GoPay, I contributed to mobile and web app interfaces, designing clean, user-friendly layouts that enhanced the digital payment experience.
- I collaborated with designers, developers, and product managers through sprints and brainstorming sessions to solve complex design challenges.
